

Airl serves me as a resident of my community by letting me be who I want to be. I don't have to listen to what others are. I work in an enviornment where we can't listen to Christian Music, so when I get off work Airl is my release. It is in the intrest of the community because Airl I and others don't want to listen to filth that is so prevalent on the other stations. We want a safer community. Please keep Airl for the sake of many lifes.
